

A photograph showing three business professionals in a meeting. They are gathered around a desk, looking at documents and pointing at them. A computer keyboard and mouse are visible on the desk. The image has a blue tint.

Management Services

When your agency enters into an agreement with Cubic Services, you gain the added value of Cubic's Management Services. With Cubic's Management Services, your agency can expect a lower cost of ownership, while minimizing operational and technology risk. We provide a full complement of business and technical expertise to assist you during your fare collection system launch, ongoing operations, and strategic planning for the future.

Cubic has specifically designed Management Services to ensure long term success of your fare collection system. Our Management Services helps you with planning, oversight and strategic direction of your overall system goals. The benefit to your agency is reduced risk, costs and overhead, and the ability to focus on your business. And we go beyond the basics to provide support on nontechnical business issues, too.

Cubic project management professionals will help you deliver projects that are on time, within budget, and that meet your expectations. We will work with you from concept through project completion and start-up, or we can jump in at any point you like. Your project will benefit from our expertise in these specialized areas:

- Project management
- Risk management
- Cost control
- Schedule adherence
- Industry expertise
- Knowledge of best practices
- Quality assurance and safety measurement
- Performance monitoring and quality review
- Reporting & information sharing
- Analytics
- Contract administration and execution
- Workflow management
- Issue resolution

Throughout the process, Cubic maintains regular communications through regular executive briefings and performance reporting. We assist your agency in identifying emerging market conditions, and technology innovations, and provide guidelines for market positioning aimed at retaining and increasing your ridership.

We apply our experience with an intimate knowledge of your operational processes on top of the appropriate technologies to improve your operations and consequently, your bottom line.

Cubic's definition of partnership is that we measure our success by your success. Our resources are experts in the field of project management, engineering, quality assurance, reporting, construction supervision, design, analysis, contracts administration and procurement.

Management Services

While other companies may only offer a rigid set of services, Cubic understands you need customized solutions to meet the needs of your unique environment. Cubic Management Services professionals have a proven track record in project management with extensive knowledge of the transit industry overall.

Management Services provides you with the people and information you need to be successful. Get product information or learn the most effective use of our implementation methodology. We'll help you locate release notes, training specifications, upgrade schedules, collateral and partner information. It's your connection to real-time management personnel.
